

Youth Registration Now Open!

We are excited to see so many people from our state interested in getting our youth rugby players back out on the field in a safe manner. This past year has been long and challenging for our beloved rugby enthusiasts and even our kids. We take great pride in youth rugby development and are ready for the next chapter.

The Capital City Rugby Conference, supporting Columbus and its surrounding cities, has shown tremendous growth in youth programs for the spring 2021 season. As a result, we are eager to share that many new clubs are forming. The intention of these new programs is to reach new audiences of children, keep the play fun and engaging, and offer the game of rugby as close to home as possible.

Visit our website to find a youth program near you. Registration is open, sign up today!

Would you like to start a new youth program in your town? Rugby Ohio will help with resources, marketing, a step-by-step program guide - we'd love to see more new programs! Contact info@rugbyohio.com for more details.

InjureFree ™

We are working to ensure the safest possible playing and sideline conditions for our youth athletes as they return to play again. We are excited to be using the InjureFree technology and their critical Symptom Monitoring feature to mitigate the effects COVID-19 could have on our activities. InjureFree is a user-friendly, digital risk management platform making it easier to report injuries and comply with state concussion laws and new federal child abuse prevention training requirements. InjureFree has launched COVID-19 Daily Symptom Monitoring in partnership with MD Box, a fully compliant Electronic Medical Record system, so your child's information stays private and secure. As team rosters are finalized you will receive an email inviting you to complete your InjureFree account registration.

Important notes about Symptom Monitoring (SM) feature:

- Be sure your mobile number is listed in "Emergency Phone." This is vital for you to receive the necessary messages.
- It is a 2-step process to enroll in Symptom Monitoring for COVID-19. First, you must complete registration on the InjureFree platform from the email registration invitation. There is a 1-day delay

in Symptom Monitoring text prompts upon registration so please be patient when waiting for your symptom monitoring text.

Need help? The InjureFree Support team is most easily accessed via email. They can be reached at support@injurefree.com and can provide assistance.
