

High School Divisions Set

Teams are recognized as either Single School or Competitive Club based on actual registration data. To be a single school team, a minimum of 85% of players must be from the same school district. They are then divided into D1 and D2, with the D1 teams pulling from a larger potential player pool. Teams that do not meet that requirement are classified as Competitive Club.

Flexibility During COVID-19

Everyone knew this season would be different. It is fantastic that there are young players enjoying rugby across the state, and with youth programs kicking off this week, that range from Kindergarten through high school.

There have been adjustments this season. Games have been rescheduled.

Teams have gone into quarantine due to COVID-19 exposure. The good news is that all of these precautions are effective. While there have been notices of a case here or there, Rugby Ohio has not seen a spread from team to team.

Thank you to everyone for making the extra effort to be vigilant. Keeping our players, coaches, referees, and families safe are incredibly important to all of us. With your continued hard work and attention, we should be able to see this through to the finish.

Registration Remains Open

Rugby Ohio decided not to close registration or add a late fee this season. At any point in the season, there will be a way for players to get involved. Contact your coach or Rugby Ohio with any questions. The season runs through the month of May. Information about summer programming will be out soon! Children need outlets for exercise and mental well-being. When you are ready, we'll be here to help you get back into the game or learn a new sport!

Stay well!
